**WASH BRUSHES
BUILT TO LAST**

valleybrush.com

Effective August 1, 2024, Valley Brush is owned by Canadian brush manufacturer, Felton Brushes Ltd.

Felton Brushes has served industrial distributors and industry as a premium quality brush company since 1933. Based out of Hamilton, Ontario, we are 100% Canadian owned and operated.

We are particularly proud about our new division Valley Brush, which specializes in a diverse range of durable wash brushes designed for the Recreational and Industrial Vehicle, Auto Detail, Janitorial, and Reseller industries across Canada and the U.S.

Our Guarantee

We stand behind our brushes and guarantee they are the fullest brushes available on the market. Each brush is filled to the maximum thickness with the highest quality fibers in North America, and all our products are guaranteed against manufacturer defects.

New Products

Every new Valley Brush product introduced into the market is tested in field trials for optimal functionality and application.

Our Vision

To provide the highest quality hand finished wash brushes in the US and Canada.

Our Commitment

Felton Brushes commitment to employee safety, product quality, competitive pricing and superior customer service has enabled the success of our dealers and distributors. We will continue to uphold our reputation as a leader in the industry.

SB14G

Yellow Line – Window and Delicate Cleaning

Product Features

Used for cleaning the body of vehicles, RVs, and boats.

Also used for washing windows and siding.

Soft polystyrene monofilament, flagged to a creamy finish for increased fluid retention and cleaning power.

Excellent resistance to water-based solutions and alcohols.

Heat Distortion: 175°F

Recommended Handles include 60" nylon or metal tip, with 15/16" or 1-1/8" diameter.

Green Line - All Purpose Automotive

Product Features

Used for all automotive cleaning applications.

Very soft, dense polybutylene terephthalate polyester, flagged to soft ends, feather tipped.

Our most popular brushes for washing vehicles, designed to slide over paint, are used by fire departments and auto detailers.

Heat Distortion: 250°F

Recommended Handles include 60" nylon or metal tip, with 15/16" or 1-1/8" diameter.

Blue Line – Lower Body Automotive and Truck Cleaning

Product Features

Used for auto detailing the undercarriage of a vehicle, including wheel wells, grills, and exhaust pipes.

Medium soft polystyrene monofilament, flagged to creamy finish for increased fluid retention and cleaning power.

Excellent resistance to water-based solutions and alcohols.

The 315-LT Round has been specifically designed for wheels and reaches into all the grooves.

Heat Distortion: 175°F

Recommended Handles include 60" nylon or metal tip, with 15/16" or 1-1/8" diameter.

Red Line - Cement Truck and Aggressive Cleaning

Product Features

Used for all cement truck cleaning applications.

Medium soft polystyrene monofilament, flagged to a creamy finish for increased fluid retention and cleaning power.

Excellent resistance to acids, water-based solutions, and alcohols.

The 114 bi-level is commonly used for dumpster cleaning and due to its resistance to acids including hydrochloric acid, it's also used for graffiti removal.

Heat Distortion: 175°F

Recommended Handles include 60" nylon or metal tip, with 15/16" or 1 1/8" diameter.

These brushes are flow-thru

Part #	Block Size / Description	Trim	Fill Size	Std. Pkg.

SB20RU	RED 20" UTILITY BRUSH	2½"	0.016	12

Grey Line - Rigorous Cleaning

Product Features

Used for cleaning oil, grease, and concrete.
 Further use in moss and algae removal.
 Stiff polypropylene with good bend recovery.
 Excellent resistance to acids.

Heat Distortion: 225°F

Recommended Handles include 60" nylon or metal tip, with 15/16" or 1 1/8" diameter.

Natural Tampico Line - Stack Brushes

Product Features

Naturally resistant to acids.
 Easy to clean.
 Excellent heat resistance.

Tampico fibre is hollow, so it retains bleach, acids and chemicals, preventing dripping and chemical waste.

Non-melting under high heat.

Recommended Handles include 60" nylon or metal tip, with 15/16" or 1 1/8" diameter.

These brushes are flow-thru

SB45T

SB46TS

SB810TS	LARGE STACK BRUSH, 8-10" IN DIAMETER	24

Stiff Crimped Polypropylene Line

Product Features

Very stiff polypropylene fibre in natural colour.
 This line is for aggressive applications such as paint removal, deck and driveway scrubbing, cleaning butcher blocks, breaking up moss and algae, and in food processing plants.

These brushes are flow-thru

SB8SP

Part #	Block Size / Description	Std. Pkg.
SB8SP	WHITE 8" STIFF CRIMPED POLY BRUSH	12

All Purpose Vehicle Bumper Brush

Product Features

Durable molded plastic block protects finishes from damage, while a range of fibers easily handle washing tasks—ideal for cars, trucks, RVs, aluminum siding, and windows.

These brushes are flow-thru

Handles

Different broom heads require different handles for optimal performance and efficiency.

The handle length should reach the users chin.

Choose a thicker handle, for more strength and durability. Wooden Handles are often preferred for handling comfort and can be custom cut to size, offering great value. Wooden handles do not conduct electricity or cold and absorb shock.

Order Tapered End Handles for Squeegees.

Scratch Brushes

Metal fibre brushes for the toughest of scrub jobs.

These brushes will remove rust or paint from metal or wood.

All of these brushes have a drilled hole at the end of the handle to insert rope or leather to hang up.

Used in the automotive industry to clean gaskets.
